Keiserkroon Early Tulip

Tulips

(READY IN OCTOBER)

By parcel post, add 5c per doz., 25c per 100.

The great variety of dazzling colors, in every conceivable combination, makes the Tulip the most popular of the spring-flowering bulbs. By planting bulbs of the different classes, a display of bloom may be had for several weeks, beginning first with the early-flowering section and ending with the Darwins.

Single Early Tulips

The Single Early Tulip is one of the most attractive and popular spring-blooming flowers for garden borders and for bedding. Most of those named below are equally valuable for pot culture indoors.

Painted Lady Darwin Tulip

Giant Darwin Tulips

Darwin Tulips, known as "The Tulip Aristocrats," belong to the late-flowering class; they are distinct in style of growth, the large, brilliantly colored flowers being borne on long, straight, stout stems. For massing, bedding, or for border planting, the Darwins are unexcelled. They are also very desirable for pot culture, but should be forced slowly.

Exhibition Dutch Hyacinths

Hyacinths

(Ready in October)

The Hyacinth is so well and favorably known that it is unnecessary to give any detailed description of its broad upright spike or truss thickly set with bell shaped flowers of beautiful wax-like texture. It succeeds well in either the house or garden, adorning both with varied colors and delicious fragrance of its showy flowers. Its culture is very simple, failure being almost impossible.

Top Size Exhibition

Comparatively few bulbs of this quality come into this country. They are the very finest, extra large, solid "Mother Bulbs," and should not be confused with those often sold as "Exhibition Size," which the Hollanders consider a second size. To all who wish the finest blooms we recommend these exhibition bulbs.

Our list follows—each one is a gem—no poor or indifferent ones—all large bulbs:

Gertrude. Rosy pink, large compact spike. A first-class variety for forcing, and being of the erect habit it is very useful for bedding.

Lady Derby. Vivid pink, fine spike of large waxy bells. Forces easily. One of the finest pink Hyacinths.

La Victoire. Brilliant red, large, well-shaped spike, splendid flower. Forces easily and early. An exhibition variety.

L'Innocence. Pure white, well formed spike. Early and excellent for forcing, also recommended for bedding.

Grand Maitre. Deep porcelain blue, broad, well formed spike. Recommended for forcing and bedding.

Queen of the Blues. Light blue with silvery appearance, large splendid flower. An exhibition variety of great merit. Excellent for forcing and bedding.

Lord Balfour. Purple lilac, large spike and bells. Forces early and easily.

Yellow Hammer. Pure golden yellow, fine broad spike. One of the best yellows for forcing and bedding.

Price of Top-Size Bulbs: 30c each; \$3.00 per doz.; \$22.50 per 100. By Parcel Post, add 10c per doz., 50c per 100.

We Import the World's Best Bulbs from Holland, France & Japan.

A Planting of Our Bedding Hyacinths

First Size

These bulbs are in every way strictly first class and will give perfect satisfaction for either forcing or bedding. This size is often sold as "Exhibition Bulbs," but is slightly smaller than the Exhibition or Top-Size listed above. Varieties same as described above.

Price of First-Size Bulbs: 25c each; \$2.25 per doz.; \$17.50 per 100.
By Parcel Post, add 10c per doz., 50c per 100.

Bedding Hyacinths by Color

Our bedding Hyacinths are unexcelled for use where an effective display is wanted in the open air, and are of such superior quality as to be entirely satisfactory to florists and others who use large quantities for forcing. They comprise the finest shades of color and must not be confused with cheap mixtures sometimes offered for outdoor planting. Offered in the following separate colors:

PURE WHITE
BLUSH WHITE
LIGHT PINK
BRIGHT ROSE
DEEP ROSE

PURPLE
LIGHT BLUE
DARK BLUE
YELLOW

Prices: 15c each; \$1.50 per doz.; \$11.00 per 100.

By Parcel Post, add 10c per doz., 50c per 100.

NOTE.—The supply of Hyacinth Bulbs in Holland this season is less than the demand, due to the unprecedented demand from European countries, such as Norway, Sweden, Germany and Denmark. This has resulted in greatly increased prices. During the war, owing to the lack of European demand, Dutch Hyacinth culture was greatly reduced. It takes a rather long time to produce a first quality Hyacinth bulb, and now that these markets have again opened, the result is that Hyacinths are now at a premium. In order to get the same high quality and size that we have offered in the past, we were obliged to raise our prices.

Early French
Roman Hyacinths

Early French Roman Hyacinths

Roman Hyacinths excel all other varieties for forcing in the house, being among the most easily cultivated and most satisfactory of flowering bulbs. The white variety blooms earliest and should be forced slowly. The others require about two weeks longer in forcing and make a most graceful, fragrant and early flower for outdoor planting. Offered in the following separate colors:

PINK WHITE BLUE

Prices: 18c each; \$1.75 per doz.; \$13 per 100. By Parcel Post, add 5c per dozen, 25c per 100.

Empress Daffodil

Narcissi and Daffodils

(READY IN OCTOBER)

By Parcel Post, add 10c per doz., 50c per 100.

The graceful and charming Narcissus has been developed by its many enthusiasts until the sorts offered are almost without number. We offer the most popular varieties. Our stock is of the largest, selected "Mother Bulbs" ("double nose"), which are those having reached maturity and about to break up into smaller bulbs. These will send up several flower-stems, whereas the ordinary bulbs seldom produce more than one stalk. We would advise all those interested in Narcissi to plant heavily of them this year, bearing in mind that they will be barred from importation by quarantine after 1925.

Polyanthus Narcissi

(Especially Valuable for Indoor Forcing)

The great desire of those who buy bulbs for winter blooming indoors is to have a generous supply in full bloom during the Christmas holidays. Many disappointments are due to the effort to force such bulbs as Dutch Hyacinths, Tulips and Daffodils into too sudden bloom.

Below is listed the extra early blooming bulbs (except Early French Roman Hyacinths, listed under Hyacinths) which can be depended upon for quick forcing in the house. All of these bulbs, except Chinese Lilies, are grown in Southern France, where they mature early, and usually reach America fully a month ahead of the Holland bulbs.

Any body can grow them successfully, by carefully following the instructions sent with each order, and have a continuous supply of beautiful, fragrant flowers in the home from December to March.

Among the earliest to bloom in the spring is this beautiful little flower, its funnel-shaped flowers borne erect from grass-like leaves. Most showy when planted in large beds, but very desirable effect is produced by setting crocuses here and there over the lawn. Crocuses are also easily flowered in the house during winter in pots of soil or shallow bowls of bulb fibre.

B. W. QUALITY BULBS MAKE SATISFIED CUSTOMERS

"The \$15.00 order of bulbs that I got from you last fall has proved very satisfactory. Among the lot of Narcissi there were some unlike anything I have seen before or found in any other catalog."

MRS. J. L. PHILLIPS, Washington, N. C.

"I just opened the box and want to say that the Bulbs are beautiful, so nice and fresh—the largest Daffodils I ever saw. I am sure they will be very fine in bloom. I thank you for taking so much pains in selecting and packing."

"My bed of Bartigon Tulips was gorgeous this spring, admired by everybody who saw them. The Tulips were brilliant, very large, and handsome on tall straight stems. I was naturally very greatly pleased."

MRS. C. C. DAWSON, Cramerton, N. C.

"I am thoroughly pleased with the bulbs I got from you last fall. I never saw such handsome Tulips and Daffodils, far beyond my expectations, and they certainly have been a joy to me this spring."

MRS. JAMES E. McGEE, Rosemary, N. C.

"I was delighted with your Bulbs last year, and am looking forward with much pleasure to these."

Moore's Early. Similar to Concord in size and shape, but much earlier.

Concord. Large bunch and berry; one of the best and most popular old sorts.

Catawba. Berries large, round; when fully ripe of a dark copper color, with sweet, rich, musky flavor. Requires a long season to arrive at full maturity.

Lutie. Well adapted to southern planting; large, brownish red, sweet and sugary. A vigorous grower and very productive; early.

Niagara. Bunch medium to large; berries large; skin thin with whitish bloom; tender and sweet.

MUSCADINE GRAPES

Each 45c; doz. \$4.50.

James. Berries very large; blue-black in clumps of from 4 to 10; skin thin; pulp tough, sweet and juicy; quality very good. A showy variety.

Moore's Early
Grape

Scuppernong. Berries large; seldom more than 8 or 10 to a cluster; color brown, skin thick, flesh pulpy, very vinous, sweet, and of a peculiar musky aroma. Free from disease and insect depredations and a fairly good bearer.

Raspberries

Doz. \$1.25; 100, \$6.00.

St. Regis. Red; everbearing when kept in a growing condition. Will grow almost anywhere, and is suited with sand, clay, or loam. Plants set one season ought to bear a fair crop the next.

Cuthbert. Red; most reliable red variety for the South. Plants vigorous and productive; fruit large, firm and sweet.

Cumberland. Black; the best black. We have fruited this variety; it is early, productive and has a long season. Size large; good quality.

Dewberries

Doz. \$1.25; 100, \$6.00.

Lucretia. The best variety; large and prolific; valuable for home and market. Superior to the blackberry, and larger; easily cultivated. Plant in rows 4 feet apart and 2 feet apart in the rows.

Missionary Strawberries

Strawberry Plants

Standard Varieties Recommended for Southern Growers

25 of one variety, 35c; 50 for 60c; 100, \$1.00; 500, \$3.00; 1,000, \$5.00; 5,000, \$22.50.

EARLY VARIETIES

Missionary. Early to mid-season. Foliage very resistant to leaf spot, makes runners freely. Berries are of medium to large size, firm, good color, glossy, as if polished, fine flavor and very productive. A leading variety in the South for early shipment.

Excelsior. A standard extra early variety that succeeds everywhere; firm, brilliantly colored. Fine table berry when perfectly ripe.

MID-SEASON VARIETIES

Klondyke. A great favorite in the South. Plants are tall, compact, stalks strong, leaves light green; a good vigorous grower, makes plants abundantly. Berries uniform, shapely, of fair size, rich dark red, very juicy and handsome, sells quickly, very firm and one of our best shippers.

Lady Cornelle. Similar to Klondyke, and like it, a great drought-resister. Regarded by many as a distinct improvement, even though on that magnificent variety, and as the coming market berry.

LATE VARIETY

Gandy. Berries large, firm, highly colored, and of good quality; at home on black springy soil or light clay loam, but do not plant on high sandy soil. The plants are strong and vigorous, a perfect bloomer but for best results should be set with some other good perfect sort as it is deficient in pollen.

EVERBEARING VARIETY

25 plants, 60c; 50 for \$1.00; 100, \$1.75; 500, \$5.00; 1,000, \$9.00.

Progressive. A universal everbearing variety. The first successful everbearing variety to be introduced and has been grown more than any other variety. Fruit a rich dark color, with mild flavor which is very pleasing; size medium when grown in matted rows, but good size when grown in hills; not only an everbearing, but a spring cropper also, and a berry that should be in every garden.

You Can Have Fresh Berries on Your Table Every Day in Season.

PERMANENT PASTURE

A permanent pasture is one of the very best paying investments that can be made on the farm. After careful experiment, the State Agricultural Experiment Station recommends the following as the best mixture for this section: 8 lbs. Orchard Grass, 8 lbs. Red Top, 8 lbs. Italian Rye Grass, 8 lbs. Alsike Clover, 4 lbs. Red Clover, 4 lbs. White Clover. Total seeding per acre, 40 lbs. For surest and best results should be sown in the fall. Try it.

Farmogerm

A seed and soil inoculant that increases crop production and greatly improves the soil. Don't fail to use it on Alfalfa, Clovers, Vetches and all legumes. Send for leaflet. 1-acre size, \$1.00; 3-acre size, \$2.50; 12-acre size, \$9.00, postpaid.

Broadcast Seed Sowers

Cyclone Seed Sower. Each \$2.40; by parcel post, \$2.60.

Cahoon Seed Sower. Each \$4.75; by parcel post, \$5.10.

Tools and Spray Pumps

Iron Age Hill and Drill Seeder. Opens the row, plants the seed either in continuous row or in hill any distance apart desired, covers and packs the seed and marks out the next row at one operation. Price, \$15.00.

Combined Hill and Drill Seeder, Single and Double Wheel Hoe. Does the same work as above and in addition the seeder can be easily detached and any of the accompanying tools attached, making either a double or single wheel hoe. Price, \$19.00.

Iron Age Plow and Wheel Cultivator. A popular, low-priced plow of great strength, with a complete set of detachable tools for cultivating. Price, \$5.00.

Hand Sprayer. Quart, tin, each 50c; by parcel post, 60c.

Compressed Air Auto Spray No. 1. 3-gallon, galvanized tank, \$7.00. Brass tank, \$9.00.

Auto Spray No. 5.—A combination knapsack and bucket pump, double action, 200-lb. pressure. Knapsack outfit, pump, tank, hose and strainer, \$9.00. Bucket outfit, same without tank, \$6.00.

Auto Spray No. 6. Double action excellent brass bucket pump, \$6.00.

Insecticides

Dry Lime Sulphur. For scale and certain insects. Lb. 35c; 5 lbs. \$1.40; 10 lbs. \$2.40.

Bordeaux Mixture. The standard remedy for fungus disease. Lb. 40c; 5 lbs. \$1.50; 25 lbs. \$6.75.

Dry Arsenate of Lead. For leaf-eating insects. ½ lb. 30c; 1 lb. 50c; 5 lbs. \$2.25; 25 lbs. \$10.00.

Arsenate of Calcium. For leaf-eating insects. Lb. 30c; 5 lbs. \$1.00; 100 lbs. \$15.00.

Paris Green. For leaf-eating insects. ½ lb. 30c; 1 lb. 55c; 2 lbs. \$1.00.

Bordo Arsenate. Combined insecticide and fungicide. Lb. 50c; 5 lbs. \$2.25.

Plant Cover Crops on Every Idle Acre This Fall.

THE WILLIAM BYRD PRESS, INC., RICHMOND, VA.

Fall Sowing Ideal for Lawns

Nothing adds more to the external attractiveness of a home than a beautiful lawn, and this is by far the best season to make a lawn.

1. Make sure the ground is well drained; it is impossible to grow lawn grasses on wet, sour soil.

2. Plow or spade the ground a foot deep, at the same time working in an abundance of organic matter, preferably Wizard pulverized sheep manure. Too much humus cannot be added. If the soil is poor, or if subsoil was used to grade about the house, remove several inches and replace it with good, rich top soil.

3. Lime the ground to overcome acidity; practically all lawn soils are sour. Use hydrated lime at the rate of $1\frac{1}{2}$ tons to the acre, or 10 lbs. to 100 square feet.

4. Harrow or rake the ground thoroughly and deep, so that it will be completely pulverized. The better the seed-bed is prepared, the better the grass will grow and last.

5. Sow B. W. Quality Mixed Lawn Grass, using 75 lbs. to the acre, or 1 lb. to 300 square feet, and lightly rake or harrow it in.

6. Roll or pack the lawn to firm the soil about the seeds. A fall-made lawn will not need cutting until spring.

It should be kept in mind when comparing prices that this mixture is all of the choicest, cleanest and heaviest seeds. Nothing but the best of Blue Grass, Red Top, Crested Dogstail, Creeping Bent Grass, Perennial Rye Grass and White Dutch Clover is used in our mixture. It produces a beautiful and enduring turf without light worthless chaff or cheap quick growing seeds that are only of temporary value. It is just as free from obnoxious weeds as it is possible to have it, for we buy only clean, tested seed. If weeds come up in the newly sown lawn, it is because weed seeds were already in the ground, where they sometimes remain dormant for many years. We feel fully justified in stating that it is the best Lawn Grass procurable at any price. One pound will sow a space 10 by 30 feet (or 300 square feet); 75 to 90 pounds to the acre.

B. W. Quality Evergreen Mixed Lawn Grass. Postpaid, 1b. 55c; 5 lbs. \$2.35; 10 lbs. \$4.50. Not prepaid, 1b. 45c; 5 lbs. \$2.15; 10 lbs. \$4.25; 25 lbs. \$10; 100 lbs. \$38.
